PERIODICALS LIST OF HOLDINGS AND LOCATIONS

P R E F A C E

The Science and Medicine Library catalogue is in book format and is in three separate parts:

1. Author/Title List of Books and Periodicals
2. Subject List of Books and Periodicals
3. Periodicals List of Holdings and Locations

These lists are the key to locating scientific and medical literature held in the various libraries on campus. In addition, some social sciences and humanities materials of interest to Science and Medicine readers are included, e.g. Oceanography, Recreation and some Psychology and Statistics. These book-form catalogues do not list certain categories of materials, e.g. Old Catalogue items, microforms, theses, technical reports.

A pamphlet explaining the lists in more detail is also available. Please ask the library staff for assistance if you have difficulties. Remember that the University of Toronto Union Catalogue contains entries for print materials on campus. The Union Catalogue in card form is housed on the fourth floor of the John P. Robarts Library.

Cumulative supplements in several volumes update the Author/Title, Subject and Periodicals Lists. The supplements contain only entries for new acquisitions and corrections and should be consulted first if recently published material is sought.

PLEASE ASK THE LIBRARY STAFF FOR ASSISTANCE
